R. T. Matheson & Brother, on Pine street, and stole one of that firm's delivery-wagons, with the name of the firm painted thereon, and then left in the direction of North Carolina. As soon as the police were informed of the robbery, telegrams were sent out describing the stolen property, and to-day a telegram was received from Stony Creek Station, stating that the thief had been arrested and the stolen property recovered at that place.

PONDERS FOR HORSES.

The man arrested was brought to this city to-night by Constable Best, of Sussex county, and proved to be William Harris (colored), who is well known in this city, and has a fondness for stealing horses and wagons. A well-known gentleman and prominent base-ball man of this city and to your correspondent, who stated that he was a base-ball reason in Virginia would be the best, most scientific, and most profitable of the way of making money, and it is not proposed by the base-ball Association of this city to give out any useful information as to the members who have signed up for the season, and it is finally and fully organized. It may yet be stated that full information will be given out in a few days, and that the Petersburg club will be organized with a view to victory. Many of the old members have signed with clubs elsewhere, and new men engaged in their places, have such reputations as to secure their services at good pay.

HEALTHY TELEPHONE SERVICE.

The committee appointed by the Chamber of Commerce to devise and report some means of securing a cheap telephone service for the city, have this morning reported this evening to the Board of Commissioners of the chamber. They reported that two meetings of the committee had been held to examine into the matter, and at the first meeting the Bell Telephone and Telegraph Company was represented by local agents, and the committee was authorized to make any satisfactory arrangements in respect to cheaper service. The committee also reported that they believe that any reduction can be accomplished in this direction, but express the opinion that a company can be organized which will give a better service. From information received in this investigation of the matter the committee is justified in reporting that a company will be organized in Petersburg to furnish much cheaper telephone service if the people of the city show any disposition to sustain them.
